## The Solver

Kevin loves to read mystery books. He reads mystery books because he likes to try to solve the mystery himself before he gets to the end. Solving puzzles is like solving mysteries, so he likes working on puzzles too. He also likes solving problems. Kevin can usually solve any mystery, puzzle or problem.

One day Kevin's mom was trying to find her glasses. Without her glasses, she could not drive. This was a problem because she was going to drive Kevin to his friend's house. It was also a mystery and a puzzle. Kevin really wanted to solve this mystery.

Kevin sat down with his mom. "Where do you last remember seeing your glasses?" he asked.

"I had them on while I was watching the news this morning," she said.

"Where were you watching the news?" asked Kevin.

## Penguins

Penguins are birds with black and white feathers. They have wings, but they can not fly. Instead, they spend most of their time gliding and soaring underwater! When they are on land, they waddle back and forth. A group of penguins that lives together is called a colony.

Penguins live near salt water, so that is what they drink. They have a special gland in their bodies that pushes the salt out of their beaks! Penguins find their food in the water too: fish, shrimp, and krill.

Penguins need to watch out for several predators. Some animals that eat penguins are leopard seals, sea lions, and orcas (killer whales).

Most people think about penguins living in very cold places like Antarctica, but they also live on the coasts of South America, Africa, Australia, and the Galapagos Islands.
